

lyric:Anis Moin

we kindle such fire that burn the Devil`s heart

Riding on horse of sagacity Stitch the Earth on Heaven

oath to Sohrab and Neda`s soul

to Behnoosh ,Kianoosh, korosh,s?????

to those who died like strangers in the own motherlands` exil

oath to tears of defenceless and sinless in the plateau of grief(Iran)

until we live and breath we`ll sing song of love

we want to aside execution of foolishness

we set fire to sign of anger and hatred

Rotating the key in the lock of ignorance

open the jail`s dark door to the light

turn the night from motherland to morning light

Abolish

we want to scatter hyacinth and tulips to our youngsters ,heroes `

new blood flow in to the trod vein
